A POSSIBLE MOVEMENT.

Local Unionists Say a Demand of This Kind May be Made in the Spring-The Common Laborer Alone, They State, Has Not Benefited by the Return of Good Times.

Prominent local labor leaders say that one of the possible movements of the spring will be in the direction of securing an eight-hour workday and a general wage of \$1.50 for the laboring men of the city. They declare that the unskilled workman alone has received no advance in wages or reduction in hours of work in the past three years. The passage of the ordinance by the city council providing for \$1.50 for an eighthour workday for the laborers employed by contractors doing city work is considered the first step.

"The pay of the common laborer hereabouts, excepting the mine labor ers," remarked one of these men, "ranges from \$1.17 to about \$1.35 for ten hours' work. I have been informed that \$1.12 is paid laborers by some concerns, but I am not positive as to the truth of this statement. The Canton-Massillon Electric Railway Company leads most employers of common labor by paying \$1.50 for a ten-hour workday. I do not know of section men employed on any other railroad hereabouts who receive such wages.

"Eight hours' toil is enough for any man, and the time is coming when all workmen will be required to work no longer. Mine owners find it possible to pay fair wages for common labor, and other employers should be able to do the same thing. Of course, it is the strength of the union of the skilled labor employed about the mines that has brought up the wages of the laborers, for the miners never sign a scale without making provision for the common labor-

"Dutch John" is in high feather Word has come from Germany that an uncle, recently dying, left an estate to be divided among his living relatives, and that all that is necessary for him to do to secure \$800 in money and a share of the other property is to prove that he is John Lutz. This, "Dutch John" says, he has already done. Relatives in Canal Dover, also heirs, helped him. "Dutch John" has just returned from Canal Dover, and he states that there is no doubt about the money. The administrators of the estate of the deceased uncle, it seems, communicated with the Canal Dover relatives first, and asked their assistance in locating the

"Dutch John" is not now so reticent about his name and general history. He says he always knew he had an uncle in Germany, but never expected to be remembered by him. The reason he never told his real name, he says, was because he thought "Dutch John" was good lenough. "Dutch John" is called the "Mascot of the Mill" by the employes of the Republic Iron and Steel Company. Like the lilies of the field he toils not and neither does he spin, but his language is not that of 'the flowers and his general appearance is not suggestive of the spotless. Yet recently he has taken on airs. Yesterday he was caught washing his hands.

On the day that the news or mascot's good fortune was received, the employes of the mill, pitying the wretched figure in the thin and ragged garments, raised \$8 and bought him some clothing. They like old John at the mill. It has been his abiding place every winter as long as any can remember, and all seem to believe that he has always been an old man. And he will do anything for any-body but take a steady job. The plans street; Rider & Snyder, 12 E. Main FOR SALE CHEAP—A Meuser piano. of "Dutch John" for spending his for- street.

New Rooms for 'C. U. Telephone Company.

WILL MOVE ON JUNE 15

The New Exchange will be Fitted with Every Modern Improvement-Improvements in the Federal Teléphone Plant - Massillon-Canton Line will Soon be Built.

The Central Union Telephone Company have leased the first and the third floors of the north end of the Bammerlin building, in South Erie street, and the rooms will be fitted up for the use of the local exchange. They will have a floor space of 2,100 on the two floors. and in addition will have the use of the -Death of Mrs. Mary Hauser-Obit- basement, which will be used for the storage of supplies. For more than a year the company has been looking for suitable rooms and it has been the desire to obtain quarters in which the offices could be placed on the first floor. Not until the arrangement was made with the owner of the Erie street building were they able to meet with anything that would meet with their needs. Material for the new fittings will be ordered at once and some of it will be on the ground before March 15, when the work of fitting up the place will begin. It is expected that the exchange will be removed to the block not later than June 15 next.

With the new rooms will come an improvement in the matter of service. Some time ago a considerable amount of money was expended in this city on the exchange. However, the improvement in telephony and the rapid strides in electricity and electrical appliances have placed in the hands of the Central Union Company many innovations that are not included in the present plant. In the new plant will be placed all of the late improvements. It will be com pletely rebuilt throughout. New wires and new instruments in addition to new switch boards and all exchange furniture will be put in. The present system is what is known as the magneto. The new exchange will be fitted with the common battery system, which, while it has been in use in some of the large eities for several years past, has not been used in the smaller towns, having only recently been brought to its present state of efficiency.

With the common bettery system there are no batteries in the instruments, all being in the central office. telephone. FEDERAL TELEPHONE COMPANY.

W. B. Woodbury, manager of the contract department of the Federal Telephone Company, and Miss L. E. Weidman, of Cleveland, are in the city inspecting the plant and business of the local exchange. Mr. Woodbury stated today that the company was at the present time stringing the messenger wire for a new cable and that the business in this city had grown so rapidly that a new board had to be placed in the exchange, which will have an ultimate capacity of 900 instruments. The exchanges at Dalton and Navarre are being enlarged and the one in Canal Fulthirty years when he received an hon-ton will be completely rebuilt. The work on the toll line between Massillon and Canton will be started as soon as the weather permits. At the present time the placing of poles is expensive on account of the ground being frozen. There are now on the ground five car loads of poles for this line. The gang is busily engaged in preparing the right of way. It will require eighteen or twenty days to pole the line.

Four circuits will be placed on the poles at once for the handling of the business. A Central switch point will be established in the near future through which the business out of Massillon, Canton and Alliance and all intermediate points will be handled. Canton, Feb. 21.—In the damage case of Ney's administrator vs. the Pennsylvania Railway Company, Wednesday, plaintiff failed to furnish evidence to sustain the allegations set forth in the petition, and the jury, in accordance with Judge McCarty's instructions, rendered a verdict in favor of the defendant.

John Zartman has brought suit in common pleas court against Francis Marchand to recover \$5,000 as damages for alleged injury to his good name and reputation. The plaintiff says that on May 31, 1899, the defendant falsely and maliciously filed an affidavit in justice court in Jackson township charging the plaintiff with stealing a horse. Plaintiff says that he was arrested on that charge and was compelled to give bond to procure his release from custody. He al leges that on June 3, 1899, the defend-

ant voluntarily dismissed the complaint and that the prosecution is now ended. The stockholders of the Canton-Massillon Electric Railway Company held a meeting in their office on the square Monday evening and elected the board of directors and officers for the coming year. According to an Associated Press dis patch to The Independent yesterday. the Chinese government has yielded to the demands of the foreign representatives at Pekin for the infliction of the severest punishments on dignitaries concerned in the Boxer troubles. There is no doubt but that the result was obtained through the threat of Count Von Waldersee to send a military expedition to Sian Fu, where the Emperor and Empress Dowager are residing. While the United States government did not sympathize with that hostile movement, it cannot help but be gratified that cause for serious trouble and the prolongation of the peace negotiations has been removed.

Some instructive facts bearing upon the future of the American merchant and hence upon the legislation now pending in congress are set forth in an interesting document lately issued by the treasury bureau of statistics. Historically our development of shipbuild ing has reached the point at which the economic outlook is based upon the most favorable industrial and commercial conditions ever known. The conditions are shown first in the development of the shipbuilding industry. The influence of the naval policy on merchant shipbuilding has developed shipbuilding plants to a point of equipment with tools and machinery, and to a scale of production which, with a larger demand for ships, would almost put the best American shipbuilders on the same plane as British shipbuilders as to the cost of production. The chief obstacle of work. It is this obstacle which the rine are seeking to remove by government aid.

New York, Feb. 23.-The police situation which has been unsettled for at least two years, and which has all the time been working up to a climax, especially since the recent introduction of the police bill at Albany, reached that climax Friday afternoon, when Michael C. Murphy, president of the board of health, walked into the office of Chief Devery at police headquarters and announced that he had been appointed commissioner and chief of police of the city of New York. Commissioner John B. Sexton had been there for hours waiting for news,

Devery was waiting as a citizen and not as chief, for Deputy Sheriff phy's announcement, Mr. Sexton learned that he had been appointed ery was at once appointed first deputy commissioner, Cortright was made chief of Manhattan and Richmond, F. ## Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the

urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fiftycent and one dollar

## AND AUDITOR'S EXHIBIT.

Showing the Financial Transactions of Stark County for the Year Ending Aug. 31, 1900.

Auditor's Office, Stark County, Canton, Ohio, Oct. 10, 1900.

TO THE HON. T. T. McCARTY,

Judge of Common Pleas Court, Stark County, Ohio:

In accordance with the provisions of the Revised Statutes of the State of Ohio, we respectfully submit the following statement of the financial affairs of the County for the year ending August 31, 1900.

To the Hon. T. T. McCarty, Judge of the plied with as nearly as possible in every

Court of Common Pleas:
Your committee appointed to examine the annual report of the Commissioners of Stark County for the year ending September 1, 1900, reports as follows:
The total receipts and expenditures and the bonded indebtedness of said county as shown by the report of said county as shown by the report of said commissioners we find upon examination, to be correct.

Said report further shows that the overdant in the county fund was, on September 1, 1800, 127,935,72, an increase during the year of 113,656,22. This increase is largely accounted for, however, by the expenditures in paying the decennial boards of equalization for the cases of Canton, Massillon and Alliance, and the decennial appraisers for Stark County, which amount in the levy nor could there have been any with which to meet the same.

In the letting of all countracts for bridges, if plans, drawings, representations, onlis of material and specifications of work and in the aggregate were made, and all bidders were required to conform thereto, we believe there would be a large saving to the county each year. Miss Emma Barr, of Canton, is a guest at the home of Otto E Oberlin. A special meeting of the Stanwood Liars' Club will be held at their hall on Saturday evening next, for the purpose of changing a by-law known as No. 1, which requires the telling of twenty lies by each member, daily. Many of the members are hopeful of reducing this number to ten or fifteen. All members in good standing are hereby requested

to be present at this meeting. Otto E. Oberlin says that "it is an imposition on the speeling book to spell the word F-o-r-t-y," and in order to keep the speeling book out He offers a free grab at his candy store (one year hence) to each person of Stanwood and vicinity who will write or spell "f-o-u-r-t-y," insterd of "f-o-r-t-y," for one year from this date. He gives particular notice, now, that fakirs on this proposition should teel their way when coming to get their "grab."
